

# What is she breathing?

Arsenic    Carbon Monoxide  
Formaldehyde    Ammonia

## Harmful Chemicals Found In Secondhand Smoke

The Center for Health & Healing, an affiliate of the General Baptist State Convention of North Carolina, is sponsoring "Tobacco Free Sunday" on May 15, 2005.

Tobacco Free Sunday is an opportunity to encourage church congregations to protect our children from the dangerous effects of secondhand smoke and to promote strong and healthy families. Please join us on Sunday to make a commitment to educate our young people about the dangers of tobacco use.

If you would like information about participating in "Tobacco Free Sunday", please call Toshia Davis at 919-572-6374.
