

On December 14th, three students from East Surry High School in Pilot Mountain scheduled a recording session with the Media Specialist, Thomas Williams, at the Surry County Health and Nutrition Center to record three Quit Now NC PSAs.

The three students represent the Principals Advisory Council (PAC) at their school. These students have been the initiator with getting Tobacco Prevention activities scheduled at their school in hopes of passing a 100% Tobacco Free School Policy.

Here are some pictures documenting their day.

Sarah, recording with Thomas. Sarah is the coordinator for the PAC Club at ESHS.

Phil, also President of the Student Government, was the brave one and went first. He did a great job!

Maggie, the youngest in the group, decided to give a stab at it. No pressure Maggie!!

Brooke, Tobacco Free Coordinator, decided that she wasn't going to let being 35 weeks pregnant keep her from being on the radio!
